New Life Medical Equipment Receives ACHC Accreditation

Dallas, TX, December 11, 2009 – New Life Medical Equipment has received the coveted Accreditation Commission for Health Care, Inc. (ACHC) accreditation in multiple programs, including Home/Durable Medical Equipment Services, Medical Supply Provider, and Complex Rehabilitation and Assistive Technology Supplier.

“We are thrilled to have the ACHC accreditation. Quality in our organization is of vital importance to us,” said Stephanie Robinson, Chief Operating Officer. “We want our clients to receive the best products and service, and are happy to invest the time in establishing superior practices to ensure they are well served.”

Receiving accreditation by ACHC reflects New Life’s dedication and commitment to meeting quality standards that facilitate a higher level of performance and patient care. The in-depth process included multiple audits and reviews to ensure New Life met the exacting ACHC standards.

“Our organization received many benefits from going through the accreditation process,” said Mrs. Robinson. “We have improved policies, a better business plan, more efficient operations, stronger risk management strategies, and most importantly, are a better company for our clients.”

ACHC’s mission is to support healthcare organizations and providers in optimizing wellness through standards that promote the effective, efficient delivery of quality services and products. Their accreditation programs are tailored to the home care and alternate site healthcare industries. For more information, visit their website at www.achc.org.
